FOCUS | PARTNERSHIPS | INNOVATION

## THE AVENIR STORY

Avenir Ingredients is a dynamic company specialising in the supply of ingredients for manufacture of personal care products and cosmetics to the Australian and New Zealand Markets.

Our philosophy has been to offer the highest quality ingredients from ethical and sustainable sources and to be able to service manufacturers and brands with our expertise in our ingredients.

Our team are highly qualified in chemistry and cosmetic science to assist our customers with their ingredient choices.

Since our inception, our range has expanded and we can now offer a complete spectrum of ingredients that are used in most personal care products. We have actives that are cutting edge and award winners, all with full clinical data to support their claims.

We source our ingredients from Suppliers known and trusted around the world for their quality and consistency. We lead the way with concepts and trends that we can share with our brand customers to formulate innovative products.

# OUR EXPERTISE

EXPERTS IN INNOVATIVE INGREDIENTS

We have access to market trend information and concepts to inspire your brand. Our technically qualified sales team can also provide assistance and advice in selection of raw materials and formulating. We have carefully selected suppliers from all over the world who have the most innovative and sustainable ingredients.

# OUR PARTNERS

---

## AKOTT EVOLUTION

Akott's product philosophy is based on creativity, elegance, art, culture, science and technology. They produce high technology active ingredients and natural extracts.

## ECKART

Eckart is a manufacturer and supplier of metallic and pearlescent pigments for the cosmetic industry. Their pigments orchestrate beauty and provide a shimmering effect in powders, nail varnishes, make up, hair care and shower gels.

## FLORATECH

Floratech are market leaders in supplying botanically derived ingredients. Floratech ingredients are derived from renewable botanicals such as jojoba, macadamia, sunflower and moringa.

## COBIOSEA

Cobiosa offers naturally effective cosmetic ingredients for skin care and hair care. Cobiosa is specialised in the production of natural ceramides, marine origin actives and botanical extracts and oils from the Andean Region.

## EVONIK

Evonik Personal Care is a specialist in ingredients and concepts. Evonik specialise in emulsifiers, secondary surfactants, synthetic and enzymatically produced emollients, conditioners, thickeners, pearling agents, active ingredients, multifunctional additives and preservatives.

## HYUNDAI BIOLAND

Hyundai Bioland is leading the development of raw materials using natural resources in the cosmetics raw materials industry. Bioland supplies products with such technologies applied as natural extraction, separation and purification, synthesis, and fermentation.

# OUR PARTNERS

---

## IKEDA

Ikeda is a Japanese supplier of high quality cosmetic raw materials. They have an extensive portfolio of specialty ingredients in organic compounds, silk derivatives and natural oils.

## KAHLWAX

Kahl Wax is one of the leading specialists in natural waxes. They offer a wide range of products and services, focusing on refining natural waxes, tailor made speciality waxes, beeswaxes, powder waxes, resins and offering concepts and prototypes to support your developments.

## LIPOTRUE

Lipottrue focus on highly innovative active ingredients from 3 main technologies: Marine Bioresearch, Biomimetic and In-silico designed peptide and Proteins & Growth Factors using Wild Plants as Biofactories.

Their specialty is antiaging and haircare.

## IOI OLEOCHEMICALS

A broad portfolio of multifunctional ingredients from emollients to emulsifiers makes IOI Oleo GmbH a creative partner for both modern and nature-based cosmetic formulators. All ingredients are either RSPO Mass Balance or Palm-free.

**IOI OLEOCHEMICAL**

## LESSONIA

Lessonia offers a wide range of natural exfoliants, micronized plant pigments and extracts to the Personal Care Industry. Lessonia draws its strength from its unique origins and expertise in sourcing and processing natural raw materials, mainly from upcycled materials.

## LUCAS MEYER

Lucas Meyer Cosmetics are a leading manufacturer of innovative, functional ingredients and actives. The portfolio contains a comprehensive range of innovative actives, marine, botanical extracts, biomimetic peptides, biotech actives and Australian botanical extract, actives and oils.

# OUR PARTNERS

---

## VANESSENCE

Vanessence is a family owned business specialising in the creation and production of the highest quality of natural perfumes and fragrances.

## SUDARSHAN

Sudarshan is a leading pigment manufacturer based in India. They offer natural pearlescent pigments for personal care and colour cosmetics.
